RGB LED Spheres

GLP

GERMAN LIGHT PRODUCTS

With a 360 degree light distribution, these LED spheres can be hung anywhere in a room and give equal enjoyment to your entire audience. Featuring low energy LED sources and available in two convenient sizes; a smaller diameter of 20 inches / 50cm, and a stunning larger size of 39 inches / 1 metre. Each sphere has a DMX input and output and features a number of operating modes, or can run as a stand alone piece with pre-programmed effects, or static looks.

RGB LED Color Mixing Spheres

The smaller 20 inch sphere features 3 banks of 3 Watt RGB LED's, whilst the larger 39 inch diameter sphere features 10 banks of 3 Watt RGB LED's, all combining to give seamless color mixing across the full surface of the sphere.
