

LED Power Supplies

LED Power Supplies

We offer a range of low voltage power supplies for all of our LED tape and other low voltage products.

All of our power supplies have a full auto sensing power input, ranging from 100-240V at 50/60Hz.

Typically, the 5 Volt PSU's are used for our pixel controlled tape, and 12 Volt PSU's are used for our non pixel controlled tape.

We also offer a range of PSU's in other low voltage outputs and with outdoor IP ratings. Please contact us for further details.

All PSU's are UL listed for electrical safety.

Product Name	Input Voltage	Output Voltage	Capacity	Dimensions (LxWxH)	Weight
S-100-5	100-240 VAC/50-60Hz	5V DC	100 Watts	7.56 x 3.94 x 2 in	1 lb
S-60-12	100-240 VAC/50-60Hz	12V DC	60 Watts	6.24 x 3.81 x 2.5 in	1 lb
S-150-12	100-240 VAC/50-60Hz	12V DC	150 Watts	8.19 x 3.88 x 1.94 in	1.5 lbs
S-240-12	100-240 VAC/50-60Hz	12V DC	216 Watts	8 x 3.69 x 1.94 in	1.5 lbs
