Scenic LED

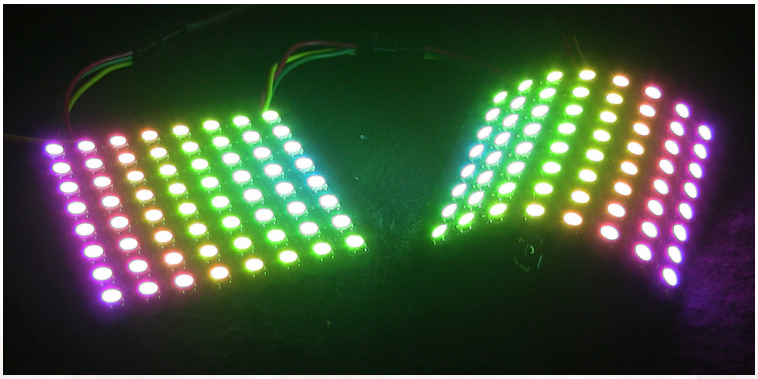
scenex LIGHTING

Scenex Lighting has its heart in creating beautiful scenic lighting elements, and its head in the practical solutions of taking these often delicate items into the real world of entertainment lighting applications.

From the toughest concert touring schedules to fast assembly items for quick change events, and the consistency of long running shows that need identical performance from the very first to the very last show, Scenex Lighting has it covered.

Our solutions comprise not just the lighting elements themselves but also the control and the systems that make them work in a practical and affordable format. We back this up by years of experience and knowledge from our staff who are the heads behind developing so many of our products. If we've done it, then we know how to solve it, and we are happy to share our experience.

The full range of Scenex Lighting offer practical, affordable and reliable solutions to your LED set lighting needs.



8 x 8 Pixel RGBW Digital Matrix

80mm X 80mm LED Matrix
Input voltage DC5V
Power 16W
Light source 64 SMD 5050 RGBW, SK6812 IC chip USC2904
CRI >80
IP Rating IP22
Beam angle 120 °

GLP German Light Products, Inc.
1145 Arroyo Street, Unit A
San Fernando, CA 91340
Tel: 818.767.8899

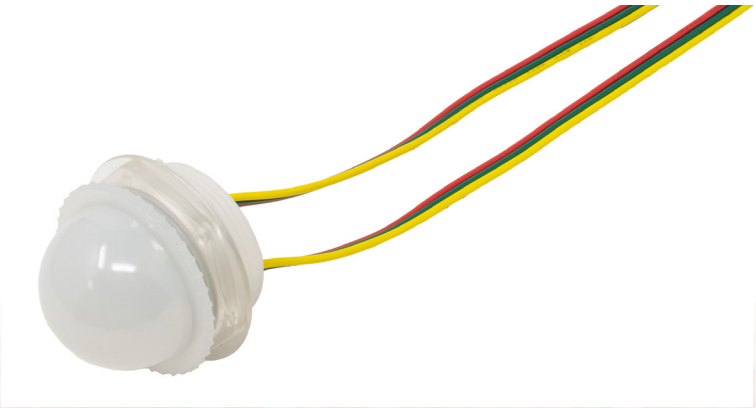
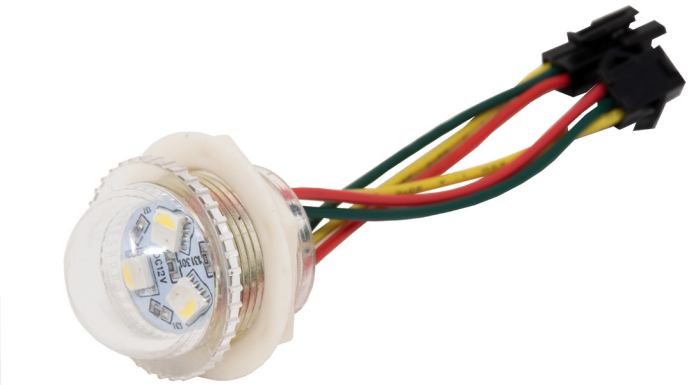
Scenic LED

scenex LIGHTING





35mm Pixel Dome LED RGB IP67

35mm Pixel Dome
Input voltage DC12V
Power 1.44W
Light source 9 x 5050 SMD
IC chip UCS2903
Diameter 35mm
CRI >80
IP Rating IP67
Beam angle 180 °

26mm Pixel Dome LED RGBW IP67

26mm LED Pixel Dome
Input voltage DC12V
Power 1.44W
Light source 3 SMD 5050 RGBW
IC chip UCS1903
Diameter 26mm
CRI >80
IP Rating IP67
Beam angle 180 °
