

GLP Firmware Change Log

impression X5 (X5-19) / Firmware Log / 01/11/2023

Below you will find the history of all fixture firmware versions since the release of the device. Please note the respective information on functional changes, extensions, optimizations, etc. Even if it is our goal to develop firmware updates without relevant performance changes, it can always happen that optimizations or bug fixes can affect the device performance. Please read the note on "INFO" as a matter of urgency.

We strongly advise that firmware updates be carried out on individual replacement devices first.

Likewise, updates should never be carried out shortly before an important use of the device. If in doubt, speak to your GLP Service Team.

11 Jan 2023 / Main changes from V0.14.4 to V0.14.5	
VERSION DETAILS	<ul style="list-style-type: none">• N/A
BUG FIXES	<ul style="list-style-type: none">• Fixed bug in dimmer curve in RGBL - ColorMix Mode
UPDATE PROCESS	<p>If fixtures are on V0.12.6 or earlier an iQ.Mesh Update has to be performed via the iQ.Mesh App. Afterwards 2 files have to be uploaded via DMX/RS485. First the new Bootloader, second, the Main application. Please take care that fixtures don't lose power between the two updates. (1, 2, 3) For the mesh update please refer to the separate mesh update manual.</p> <p>If fixtures are already on V0.14.4 only the main application V0.14.5 has to be uploaded. (3)</p> <p>1.) Mesh Update to Version 5.0.26</p> <p>2.) Upload: impression-X5_0.14.5_BOOTDMX.bin</p> <p>This has to be done via DMX, D3Prog, daisy chain. To get all drivers internally updated please wait 5 minutes after this update before you proceed with step 2. During Step1 the fixtures display can go off. Don't worry. Just wait the specified 5 minutes. The display will go On after step 2 again.</p> <p>3.) Upload: impression-X5_0.14.5_DMx.bin</p> <ul style="list-style-type: none">• When importing the bin files to a D3Prog make sure that you choose the file type „BIN“ before uploading the file to the programmer. <div><p>The fixtures can be updated daisy chain via DMX/RS485. Please make sure that no other DMX receivers or consoles are active on the line and fixtures Control Protocol is set to DMX</p></div>
INFO	<p> This update is show critical as pattern, dimming, colormix and shutter behavior is changed and should not be done on site. V0.12.4 and 0.12.6 is stable, still.</p>

No responsibility taken for misprints, errors and technical changes.

Technical data is subject to change without notice as a result of product modification.
